**Attachments:** ATT00001.txt

Hi Travis,

Attached is a zipped file of those initial permit application documents and the images of the AoR Corrective action module.

Please let me know if you have any questions and we will reach out as we get more information on your issue logging in.

Thank you for your patience,

-Taner Durusu

Hi Travis,

I shared the issue you are experiencing with our developer and I hope to have more information by the end of the day, I am attaching screenshots of the initial modules and the associated template documents that you should use to complete your permit applications so that you won't be too slowed down while we work out how to restore your access to the GSDT modules. I am attaching in this email and a second email the screenshots of the first two modules (project information tracking module and the AoR module) so you can see what information needs to be gathered. Based on the Initial Project Information Tracking Module, you will want to complete the following documents attached in the zip folder of the second email:

- |  |                                       |
|--|---------------------------------------|
| 1. Narrative Outline                                       | (146.82a_Narrative_Template.docx)     |
| 2. An Area of Review (AoR) and Corrective Action Plan      | (Att B – AoR CA Plan Template.docx)   |
| 3. A Testing and Monitoring Plan                           | (Att C – TM Plan Template.docx)       |
| 4. A Well Plugging Plan                                    | (Att D – Plugging Plan Template.docx) |
| 5. A Post-Injection Site Care (PISC) and Site Closure Plan | (Att E – PISC SC Plan Template.docx)  |
| 6. An Emergency and Remedial Response Plan                 | (Att F – ERR Plan Template.docx)      |
| 7. Computation modeling information                        |                                       |
| 8. Proposed pre-operational logging and testing program    |                                       |
| 9. Optional alternative PISC timeframe demonstration       |                                       |
